Lee. A NEW PLEA FOR DIVORCE,-Tho

Supreme Court of Pennsylvania is called upon to decide, if a man, who gains a wife by falsely representing himself to be rich, shall be divorced, the wife claiming that a marriage contract, through such false pretences, is null and void. Of course the divorce cannot be granted, because, as for case of false protences to obtain money, it was the lady's duty to ascertain, before parting with herself, that the represcutations were correctly founded, The case is a remarkable illustration of how far discontented married people will go, in these free love days, to procure their liberation from the marringe thrail. As well might a husband sue for a divorce on the ground of having been deceived by a wig, or by padded dresses, or by a row of falso SINGULAR MURDIN CASES, - WIL-

As this is the commencement of the oyster season, we will lot our readers know how to rook them. For this infolk Dan Rook. The Norfolk editors. it must be acknowledged, know all about oysters. They were raised on Oyster Some -Put two quarts of eva-

ters, liquor and all, in a pan, set them on the stove to heat, but don't let them boll or come very near to it; now drain all the liquor into your soup kettle and put in a pint of water and two quarts of new milk, half a pound of butter, a little whole allspice and pepper. Have the oysters all this time where they will keep warm, add them, and salt to the laste. Just as you are ready to serve the soup, break up some crackers the and put them into the soup before the oysters are put in. Sait should always be put in the last

thing in any soup, stew or frience, where milk is used, or it is upt to curdie. Oysters should never be boiled, but only scalded; it makes them tough and shrinks them up. If they are to be slewed, heat them hot, but don't buil them. Always have the soup or gravy hot.

Oyster Stew.—Put as many fresh oys-

ters, with their liquor, as you think you need, into a pan on the stove to heat, but not boil. Drain the juice off mto a pan. As soon as it holls add half a pound of butter and some pepper. When this boils add a pint of cream and thicken a little with flour; after this boils up once put in the oysters, and more sult if necessary. Serve Oust c Toust .- The same as the pre-

ceding, but no cream. Thicken the oysters in it. It is best to heat the dish bot that you put your oysters in to send to the table, as they are so much better hot than merely warm. Oyster Strie without Cecum, Make only substituting half a pint of water; for the cream. Many persons prefer oysters stewed in this way.

Oyster Fritter. — Make a batter of

milk, flour, eggs, cream-of-tartar, suieratus, salt in proper proportion.

Don't make any thicker than for pancakes. Thop an pyster into each spool of batter as you dip it out and fry it hot bild. Brown well on both sides. Oaster Fried.-Drain the oyster vell; roll in fine-rolled cracker and try is but hard and butter. Oaster Pier - Line a deep basin will

puff-paste; fold a large lower and place inside to support the lid, then tell and ornament a piver of paste, tho tame as for a common pic; put on the basin and bake slowly. Have an oysfet stew made as above, without cream and fill the basin as soon as the paste is done. Serve immediately. PERFFER COFFEE.

A correspondent of the Independent ravelling in Sweden was immensely delighted with the coffee served on th Steamboats and hotels. 42 At Pinala.? be writes, "we determined to find out how they made such perfect coffee a we had just drank, and stepped into the next kitchen of the little botel: and this was the report: Take any kind of coffice-pot or urn, and suspend a bag made of felt or very heavy flanad, so long that it reaches the bottom, bound on a wire just fitting the top put in fresh ground pure coffee, and CHAMBERSBURG ST., GETTYSBURG, PA fluid filters through the bag, and may be used at once; needs no settling, and retains all its atoma. The advantage of this over the ordinary fliter is its economy, as the coffee stands and soaks out the strength, instead of merely leiting the water pass through Do you boll it? inquired the learn. er.
